Description

The Mercury Racing Pro FinishedBravo I XSoutboard propellers offer excellent time to plane performance, sweet mid-range punch and awesome top-end speeds for bass, flats, cat flats and performance center console bay boats.

The stainless steel propeller, designed for use on Mercury V-6 OptiMax, OptiMax XS and OptiMax Pro XS outboards, features four robust blades and a tuned exhaust tube with 1" vent holes for enhanced acceleration and mid-range punch. The shortened exhaust tube provides greater top-end speed while minimizing stern lift for improved boat handling and performance.
