Description

The all new 420 Busta has been totally upgraded and to do this Quintrex has basically taken a 420 Renegade Hull and made it look like a Busta!

End result is the Busta now has the legendary smooth and dry ride of the Renegade with the only dimensional changes being it weighs 118kg less and is only 5cm shorter and that enables this boat to make effective use of less power or become a dead set rocket with its new max 50hp Rating.

What makes this Busta so special is we give it a side console complete with non feedback steering making this an exceptionally easy boat to use not to mention sprightly due to its Yamaha EFI 40hp power with the end result being a very cost effective way of getting into a premium riding Quintrex forward controls and powered to perfection with its Yamaha 40hp EFI four stroke.

Riding on a Genuine Quintrex 749kg ATM alloy trailer, not only is this package capable of anything put in front of it, it is also very light weight and can be towed by most vehicles.
