Description

2024 Quintrex 420 Renegade Side Console Yamaha 50hp EFI Four Stroke

This would have to be one of the smartest power options for the 420 Renegade with the Yamaha F50. The Yamaha F50 is a proven single overhead cam, 996cc, four-cylinder marine engine, that delivers an excellent power-to-weight ratio and exceptional refinement and fuel-efficiency. Out of the entire 4-cylinder 50 horsepower category, the F50 is the only Japanese manufactured engine in its class; which translates to superior reliability, refinement and quality that Yamaha engines are renowned for.

Utilising Yamaha's exclusive Multi-Point Fuel Injection System (EFI) and Electronic Control Module (ECM), the F50 delivers impressive power and torque, smooth and comfortable operation, low noise levels and emissions, and the best fuel-economy in its class.

420 Renegade is pure and simple a lot of boat for its size in fact with its Blade Hull That only (Quintrex can do) and 3mm plate construction from top to bottom stem to stern this boat is solid as it is capable.

In fact renegades have earned a reputation as giant slayers simply because they provide a level of on water ride and performance that has to be experienced to be believed! that is specific to Quintrex. Yes the blade hull is that good.

They achieve this due to its innovative and exclusive Blade hull shape that is only found on Quintrex in fact this hull shape works so well that statistically the Renegade is the most sold boat in Australia year in year out and actually increasing put simply the whole country cannot be wrong year in year out yes, it is that good.

*****This renegade rides on a Quintrex Aluminium trailer *****
