Description

With a sleek low-profile cowling design, matched with a silky-smooth four-cylinder engine configuration, inside of a compact and light-weight body, the F50 looks as good as it performs.

Within the F50 is a proven single overhead cam, 996cc, four-cylinder marine engine, that delivers an excellent power-to-weight ratio and exceptional refinement and fuel-efficiency. Out of the entire 4-cylinder 50 horsepower category, the F50 is the only Japanese manufactured engine in its class; which translates to superior reliability, refinement and quality that Yamaha engines are renowned for.

Utilising Yamaha’s exclusive Multi-Point Fuel Injection System (EFI) and Electronic Control Module (ECM), the F50 delivers impressive power and torque, smooth and comfortable operation, low noise levels and emissions, and the best fuel-economy in its class.

The 50 horsepower is now available in both signature Yamaha grey and new pearlescent white colour options.
Technical Specification
HeightL: 527 [20.7]
WeightL: 113
Engine4-Stroke, SOHC In-line 4
